### Fear France Will Accept Peace-At-Any-Price

### Worst Crests In History Hit Iowa's Capital

### About Town

And Country  
By TIMOTHEUS T.

LOOKING AROUND: Pardon me for not being around in yesterday's issue but I was busy reading a 24-page pamphlet and didn't have time. It's called The Imperial Magazine, published by the Imperial Type Metal company, and I was interested in a number of things the magazine says.

"If two married couples are riding in a car, says Louis Kronenberger in Company Manners, and each sits with his wife, they probably are working-class people. If the men sit together, they are probably middle-class. If each husband sits with the other's wife, they definitely are upperclass."

"At times Kronenberger is cynical and sarcastic at what he sees of the American scene, such as the decline of good manners and the neurotic desire for expensive entertainment. What is lacking is a culture not based on superficial vulgarities, crowd emotions, hilarious noise, and synthetic virtues."

"The author gives Americans credit for some sound virtues. We are lively, ingenious, generous, adaptable, efficient and open-minded. Americans tend to be go-getters and do-gooders. We have a sense of decency and sportsmanship, he says."

Then says the pamphlet: "Doesn't it make you mad to see someone with a smaller income having more fun than you?"

Not nearly so cynical is the Sunshine Magazine. I have its July 1954 issue right before me and on the front cover are these words: "Nothing can be truly great which is not right."

It also says: "He who works with his hands is a laborer."

"He who works with his hands and head is a craftsman."

"He who works with his hands and head and heart is an artist."

"He who works with his hands and head and heart and feet is a salesman."

And here's a good one: "A schoolboy was making a speech on the national debt. He said: 'It's too bad that future generations can't be here at this time to see the wonderful things we're doing with their money.'"

Better get back home now and close this column.

Noticed activity yesterday on Main street.

First, at Mac's Car and Home Supply I saw a new front going in and a new sign going up. Mac has two rooms and there'll be a new Goodyear sign over both buildings. The rest of the front will be painted white with blue trim.

And a new Rainbow Rexall drug store sign was put up yesterday, also.

### Senate Passes Bill to Aid Building Dams, Reservoirs

WASHINGTON (AP) — The Senate has passed a bill authorizing the Agriculture Department to aid local, county or state groups in building dams and reservoirs as part of watershed soil conservation programs.

The measure, passed without objection, was sent back to the House for concurrence in several amendments.

The measure amounts to a declaration of new congressional policy on federal cooperation—aid, channeled through the Agriculture Department, for projects designed to hold water where it falls, upstream.

### Three St. Louis Youths Held Here for Federal Authorities

Three St. Louis youths, Franklin Deal Bayles, Leon Raymond Isenhardt and Ralph Leroy Voegtlin, are held in the Saline county jail for federal authorities, charged with taking an auto in St. Louis and driving it into Illinois.

Brought here by Deputy U. S. Marshal John Small yesterday, they were arraigned before U. S. Commissioner W. W. Damron and their bonds were set at \$3,000 each.

### Eden Proposes Peace Guaranty By Both Sides

Warns Indochina Could be Spark For World War III

LONDON (AP)—Foreign Secretary Anthony Eden proposed today that both the free world and the Communists guarantee the peace of Southeast Asia.

Eden, appearing before the House of Commons on the eve of his departure for Prime Minister Winston Churchill for conferences in Washington with President Eisenhower, coupled his proposal with a grave warning that Indochina could spark World War III.

Eden said he hoped agreement can be reached on an international guarantee on any settlement of the Indochina war which may emerge from Geneva. Then he added: "I also hope that it will be possible to agree on some system of Southeast Asian defense to guard against aggression."

"We could have a reciprocal arrangement in which both sides take part, such as Locarno, or we could also have a defensive alliance such as the North Atlantic Treaty Organization in Europe."

The idea of a Southeast Asia and Pacific NATO was proposed by U. S. Secretary of State Dulles even before the start of the Geneva peace conference, but Britain shied away from it pending the outcome of the Geneva talks.

The Locarno-type pact would be similar to the pact signed in Locarno, Switzerland, in 1925. It provided that Great Britain, France, Germany, Italy and Belgium would guarantee the peace of Western Europe and that Germany would submit to arbitration any disputes with France, Belgium, Poland and Czechoslovakia.

Eden denied that Britain has prejudiced or delayed the creation of a united front of anti-Communist powers in Southeast Asia. He said Britain remains ready, as she said last April 13, to examine the possibility of such an arrangement.

"We have both responsibilities and friends in Southeast Asia," Eden said. "I have seldom known a situation in which the risks of a wider conflagration should be more apparent to all."

### TVA Democrats Threaten to Block A-Changes

WASHINGTON (AP) — Tennessee Valley Democrats today threatened to block revision of the atomic energy law if President Eisenhower does not cancel a power contract between the Atomic Energy Commission and a private power group.

Democrats bitterly opposed to the proposed contract disclosed that they are ready to battle—and possibly filibuster—against revamping of the atomic law if the administration does not back down on its proposal to have the private power company supply power into the TVA system.

TVA area Democrats indicated their new strategy during an attack late Tuesday on the contract which the President last week ordered the AEC to sign with the Middle South-Southern Power Combine.

Under the proposed 25-year contract, the private power plant, to be located in West Memphis, Ark., would supply 600,000 kilowatts of power to the TVA system for use in the Memphis, Tenn., area. While the power would not be supplied directly to the atomic plant at Paducah, Ky., the administration argument is that this arrangement would indirectly relieve TVA of part of its power burden, and thereby make it unnecessary to spend federal money to expand TVA's productive capacity.

### Seoul Hit By Disastrous Fire

SEOUL, Korea (AP) — A fire ate its way through the heart of Seoul's tinderbox blackmarket district today, destroyed a 10-block square area, flattened at least 200 shacks and homes, and left an estimated 6,000 persons homeless.

Thousands of dollars worth of blackmarket goods also were destroyed. There were no official reports of casualties or damage estimates.

Pvt. Edward Franklin Hall

### Pvt. Edward F. Hall, Eldorado, Dies in Crash

Pvt. Edward Franklin Hall, 19, son of Mr. and Mrs. Jesse E. Hall, 904 Big Four street, Eldorado, was fatally injured Tuesday when a truck he was driving plunged over a ten foot embankment near Buena Vista, Colo. Seventeen other Camp Carson, Colo., soldiers were thrown unharmed from the truck, but Hall was pinned in the cab and died instantly of a fractured skull.

The truck hit the shoulder of U. S. 24 en route to Camp Hale in the mountains, skidded 60 feet and then went over the embankment. The other troops were only shaken up.

He is survived by his parents, and the following brothers and sisters: Melvin Hall, who is with the U. S. Air Force in Japan, Woodard Hall, Springfield, Mary Marie, Beverly Ann and Charles W., all at home in Eldorado; paternal grandfather, Mr. and Mrs. Charles Hall, Eldorado, and maternal grandparents, Mr. and Mrs. William Frazier, Springfield.

The body will be returned to Eldorado and be received by the Martin funeral service. Funeral plans are incomplete.

### Linzy Wall, 81, Former Stonefort Resident, Dies

Linzy Wall, 81, former resident of Stonefort, died Tuesday at 2 p. m. in the Union hospital at West Frankfort where he had been a patient for the past three weeks.

He is survived by three sons, Aud Wall, West Frankfort, with whom he has his home, Claud Wall, St. Louis, Mo., and Arnel Wall, Fort Pierce, Fla., and one sister, Dessie Mae Beltz, Creal Springs.

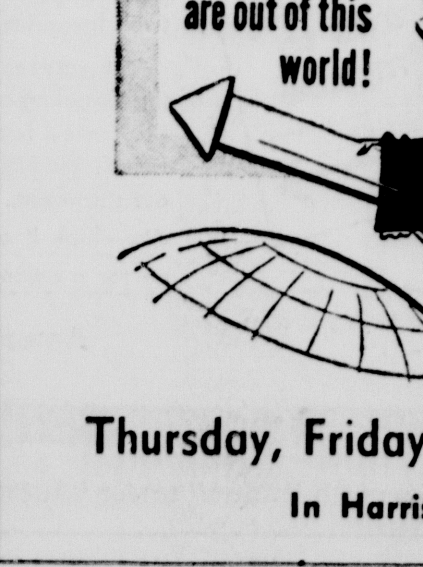

The funeral will be Thursday at 1 p. m. at Walnut Grove church. Burial will be in the Simmons cemetery near Creal Springs.

The body will lie in state at the Thornton funeral home in Stonefort.

### Rites Near Eldorado Friday 10 a. m. for Mrs. Lillie Johnson

The funeral of Mrs. Lillie Mae Johnson, former resident of Saline county who died Tuesday in a St. Louis, Mo., hospital, will be Friday at 10 a. m. in the Douglas church north of Eldorado. Rev. Ned Sutton will officiate, and burial will be in the Douglas cemetery.

The body will arrive Thursday at noon in Eldorado and will lie in state at the Martin funeral home.

### Dulles Gives Views at White House Meeting

Congressional Leaders Briefed On Geneva Talks

WASHINGTON (AP) — Secretary of State John Foster Dulles gave congressional leaders the impression today that the United States fears France will accept a 'peace-at-any-price' settlement of the Indochina War.

One leader, who asked that his name be withheld, said Dulles expressed the view at a secret White House briefing that the present French government "is more responsive to what the French people want" than its predecessor.

Dulles' statement was interpreted by some who attended the conference as meaning that the French are about ready to call it quits in Indochina "regardless of the terms" imposed by the Communists.

"Not Very Encouraging" "It was not very encouraging," one high-ranking member of Congress said.

New French Premier Pierre Mendes-France, who took office with a pledge to halt the Indochina War or resign within a month, met with Chinese Communist Premier Chou En-Lai at Bern, Switzerland, today to discuss the possibilities of a quick peace in Indochina.

The congressional leader who reported Dulles' remark also said it was apparent from the briefing that "not much was accomplished at Geneva."

Other leaders expressed concern over U. S.-Allied policy differences relating to increasingly critical Far Eastern problems.

President Eisenhower summoned 16 Republicans and 13 Democrats from the House and Senate to a 90-minute discussion of the collapsed Geneva conference and the international situation in general.

Senate Democratic Leader Lyndon B. Johnson (Tex.) said the briefing convinced him "it is high time that we and our Allies close ranks."

Rep. John M. Vorys (R-Ohio) said after hearing "the whole story" of the Geneva conference that "our fellows have been far-sighted all through this period, but we can't get support of the Allies who don't see the problem as we do."

U. S. diplomats have been unable so far to persuade other free nations to join in united action to block further advances of communism in Southeast Asia.

Smith Briefs Congressmen Undersecretary of State Walter Bedell Smith, who returned from Geneva Monday, talked for about an hour.

As the White House meeting was going on, Eden told the House of Commons in London that there is danger a third world war may be set off in Indochina and Southeast Asia. He and Churchill obviously consider their mission here an important and serious one.

Knowland said the White House promised to give Republican and Democratic congressional leaders a report on the Churchill-Eisenhower, Eden-Dulles talks after their conclusion.

### Rites at New Haven

The funeral of Mrs. Amos Starkey, former resident of New Haven and Omaha who died Monday in Alton, was today at 2 p. m. at the Presbyterian church in New Haven. Rev. Luther Howard officiated, and burial was in the Union Ridge cemetery.

SWIMMING POOL IN PATH OF FLOOD—Floodwaters from the Little Sioux River crept to the edge of this outdoor swimming pool in Correctionville in northwest Iowa where a dozen rivers and streams were running over their banks following many days of heavy rains. The man waving from diving board drove his power boat across fields to the pool. (NEA Telephoto)

### Trade Ban with Communists Would Mean Ruin to Japan, Eisenhower Says

WASHINGTON (AP) — President Eisenhower said Tuesday night it would "ruin us" to ban all trade with the Communists, to scuttle foreign aid, or to forget entirely about the defense of Southeast Asia.

He conceded many people have proposed these things and there is some merit in them. But he said if they are "pursued to an extreme," a nation like Japan would fall to the Reds and the Pacific would become a "Communist lake."

Mr. Eisenhower made the statements in an informal talk before the National Editorial Association which represents 5,200 American publications, mostly small-town weekly newspapers. He described his subject as "very close to my heart."

The President's argument against an all-out ban on trade with Iron Curtain countries was viewed as an effort to counter Sen. Joseph R. McCarthy and others who have charged that any shipments help the Communist cause.

Diplomats said his emphasis on the vital need to keep Japan free and strong appeared to reflect increasing official concern with its sagging economy and the little attention it has been getting during the Indochina crisis.

Mr. Eisenhower spoke of the need for newspapers to relate facts to the complex economic, foreign and political problems on which they bear so as to promote better understanding.

He cited four facts, "brought to my attention constantly" which have "taken by themselves" will not advance the nation's welfare. He said it is true the United States "cannot be an Atlas" and carry the whole free world on its own shoulders and that "give-away programs are not going to keep the world free."

It is also true, the President said, that the Allies should not supply ammunition, guns, planes or other "direct" war aid to the Communists.

He said it is true the United States cannot be put in the position of "defending the whole world for freedom when it really doesn't want freedom." And it is true, he continued, that America should not "open the gates" to so much foreign competition that it is reduced to a "workless, long food-line basis of existence."

But he warned that any one of these ideas "pursued to an extreme would ruin us." And he said not one of them, "pursued alone," could help a country like Japan.

It is "absolutely mandatory" to America's security, he declared, to prevent Japan from falling under Moscow's influence because Japan could provide the Communists with great armies and navies that would close the Pacific to the free world.

He said, however, that Japan "cannot remain in the free world unless something is done to allow her to make a living" where her nearest big neighbor is Red China and where her next present market, Southeast Asia, now is in danger.

"If we will not give her any money, if we will not trade with her, if we will not allow her to trade with the Reds, if we will not try to defend in any way the Southeast Asian area where she has a partial trade opportunity, what is going to happen to Japan?" he asked. "It is going to the Communists."

Surviving are two children, Bernice Lorrison, Harrisburg, and Cleo McNally, Placerville, Calif.; two brothers, John Hancock, Harrisburg, and Lewis Hancock, Alton; two sisters, Pearl York, Harrisburg, and Nellie Wallace; three grandchildren and one great-grandchild.

The funeral will be Friday at 2 p. m. at the Dorrisville Baptist church where she was a member. Rev. Paul Dann and Rev. William Fuson will officiate, and burial will be in Sunset Hill cemetery.

The body will remain at the Gibbons funeral home.

### Legion Resents Eisenhower Action To Prevent Disorder

WASHINGTON (AP) — The American Legion wants President Eisenhower to know that it isn't a bunch of rowdies. It sees no reason why he should ask Congress for \$103,725 "to maintain public order" during the Legion convention here Aug. 30 to Sept. 2.

Herbert J. Jacobi, president of the Legion's 1954 convention corporation, called a press conference to protest after the White House sent Congress a request for the funds.

He resented the suggestion that the legionnaires might be disorderly. And, he didn't want members across the country to feel they would be so restricted by city police that they might as well stay home.

### Elderly Bank Cashier Held in \$88,000 Theft

ST. PETERSBURG, Fla. (AP)—An elderly bank cashier today awaited return to face charges of embezzling \$88,000 from a Michigan bank to "meet expenses and live comfortably."

Roland B. Walker, 73, said in a confession Tuesday that he was "ashamed" to admit he earned a salary of only \$5,000 after 42 years employment at the Jackson, Mich., City Bank and Trust Co.

He said he took the money over a period of 15 years from funds used in the bank's purchases and sales of government bonds. Officers from Jackson were expected to arrive today to return him to Michigan.

"I am relieved that it is finally out in the open and I can face up to it as long as I can hang on," Walker said.

He was taken to the city jail infirmary under \$50,000 federal bond and kept under a 24-hour guard.

Walker, who suffers from a heart ailment, arthritis and kidney trouble, was in a hospital recently when the shortage was first uncovered. He said he caught a plane as soon as he heard about it, coming here from "force of habit" because he and his wife often vacationed here.

The FBI said Walker telephoned her night before last, saying, "This is the last time you will hear from me." She called police in alarm and Walker was located and arrested.

Authorities said that Walker had only \$51.17 cash with him when arrested. Walker said he and his wife had lived frugally in an unpretentious home, owning one car. They have no children.

### Atomic Expert Dr. Karl T. Compton, Dies

NEW YORK (AP)—Dr. Karl T. Compton, a guiding force in development of the atomic bomb and chairman of the corporation of Massachusetts Institute of Technology, died in New York hospital Tuesday of a heart attack. He was 66.

Long considered one of the world's foremost physicists, Compton headed the vast Research and Development Board of the national military establishment for more than a year until ill health forced him to resign in 1949.

When he was named to the latter post on Oct. 5, 1948, by President Truman, Compton was described as the nation's No. 1 research executive. He served as president of MIT for 18 years prior to being named chairman of the corporation in 1949.

Compton, who lived in Cambridge, Mass., was stricken with a heart attack while visiting here Wednesday. His second wife, Mrs. Margaret Hutchison Compton, was at his bedside when he died.

The son of a Presbyterian minister in Wooster, Ohio, he was the oldest of three brothers who gained prominence in American education.

Dr. Arthur H. Compton, a Nobel Prize winner, was chancellor of Washington university in St. Louis from 1945 until 1953 and also played a leading role in development of the A-bomb.

Dr. Wilson M. Compton was president of Washington State College from 1944 until 1951. A sister, Mary, married Charles H. Rice, who became president of Allahabad university in India.

### Eisenhower Promises to Take Action Needed

DES MOINES (AP)—Five thousand volunteers worked shoulder-to-shoulder sandbagging Des Moines River levees today in a frantic effort to hold back the worst flood crests in city history.

The Des Moines River stood at 27.7 feet at 10 a. m., 4.7 feet over flood stage, and was expected to crest at 29.30 feet by Thursday morning. The previous record high was 27.3 in 1903.

Hundreds of Des Moines families fled their homes.

The Civil Air Patrol spotted a break in a major North Des Moines levee and water rushed over the dikes deeper in the city about a mile south.

### One-Fifth Des Moines Threatened

About one-fifth of the business and residential area of Iowa's capital city was threatened with inundation if the levees and sandbags failed to hold.

Minor flooding already was reported in parts of the city. Several streets were closed to traffic.

One of the critical areas was a 36-block business district in East Des Moines in the shadow of the Capitol, where water was expected to rise 3 to 4 feet above street level if the dikes failed.

Already more than 275,000 acres of rich north and central Iowa farmlands have been flooded and many cities invaded by rain-swollen rivers and streams. The waters were receding in most northern areas and moving south toward the chief danger spot at Iowa's capital city.

President Eisenhower extended "utmost sympathy" to flooded Iowans in a telegram to Gov. William S. Beardsley. He promised to take "at once" whatever "action is appropriate" after he gets a report on the situation from the civil defense administrator.

Beardsley said that President Tuesday to declare 19 Iowa counties disaster areas.

Mayor Joseph Van Dresher already had proclaimed a state of emergency.

Paul Travis, manager of the Iowa Employment Commission, said 4,800 volunteers were at work on the dikes. About 1,500 manned the levees until 4 a. m. and they were joined early today by another 1,500.

About 185 National Guardsmen from five Des Moines companies were called to duty. Naval reservists helped direct traffic.

About the only bright spot was the Des Moines Weather Bureau's prediction of fair weather for the next several days.

Meanwhile, National Guardsmen and hundreds of volunteers fought weary battles against flood waters upstream.

The Iowa floods have claimed two lives so far. A Dows farmer was drowned attempting to cross a river on horseback and Martin A. Bastian, 79, was electrocuted Tuesday as he attempted to fix a sump pump in his water-filled basement at Fort Dodge.

Flash floods have also hit parts of Nebraska, Wisconsin and South Dakota.

The Pecatonica River went over its banks after downpours in southern Wisconsin Tuesday, flooding 10 blocks at Darlington, Wis.

### Drill Smith Oil Test Deeper

The A. L. Smith No. 1 oil test in Section 2 of Independence township today was being drilled deeper.

There was oil at 1,260 feet, where casing was set, the plug drilled and cleaning out took place, but Joe Ashoff Jr., the operator, said late yesterday that they cannot get the mud out and are going down to 1,335 feet.

He said that although some called the formation where they tried to get oil at 1,260 feet the Paleocene and this was not absolutely certain. The 1,335 feet depth to which they are going presumably is the Waltersburg, he stated, but added that there is no accurate geological history in the area where the well has been drilled.

Cable tools are being used to drill the less than 100 feet.

## Editorial

IKE AND GOP WILL BE JUDGED  
ON THEIR OVERALL RECORD

Editorial — By BRUCE BLOSSAT  
PRESIDENT EISENHOWER is  
understandably concerned with  
the fate of his legislative program. He  
is a constructive-minded man, and  
he wants positive accomplishments  
to take to the voters this fall.

Every day that goes by without  
expedient action makes it more  
likely that some items in the pro-  
gram will fall away in the final  
reckoning. Congressional leaders  
now talk of adjourning the 83rd  
Congress on July 31. Even if it  
should stretch out to Aug. 15, the  
pressure of appropriations bills  
will tend to crowd out some meas-  
ures.

The most important domestic  
measures are in the field of farm  
security, social security extension, farm  
support and tax revision.

The big tax reform bill seems  
sure of passage, as does widening  
of social security. Controversy  
over public housing features, how-  
ever, may produce a final pro-  
posal much weaker than the Presi-  
dent seeks.

Mr. Eisenhower's wish for a  
flexible farm price support system  
could produce a bitter floor strug-  
gle. The House Agriculture Com-  
mittee already has approved con-  
tinuance of high rigid supports.  
Should the full House or Senate  
or both follow this course, and the  
President veto the proposal, much  
time might be consumed on the  
question whether to override his  
veto.

The President already has given  
up the fight for 1954 on his liberal  
foreign trade program. He is set-  
tling for a one-year extension of  
the existing Reciprocal Trade Act,  
and should get it without much  
trouble. The House has passed the  
bill, and the Senate can be ex-  
pected to go along.

The size of foreign aid to Eu-  
rope and Asia is always a matter  
for some debate, but with luck  
Congress might get through this  
one without too much loss of time.

Mr. Eisenhower has lost out on  
revision of Taft-Hartley, on im-  
portant foreign trade changes, ap-  
parently on stalemate for Hawaii  
(fatally linked with Alaska by the  
Senate), apparently on much of the  
housing demands. He will get less  
than he wants on health measures  
and certain other welfare pro-  
posals.

What happens to his farm plans  
may do a lot to give the final col-  
oring to his 1953-54 record of legis-  
lative accomplishment.

Let us suppose the worst, that  
he gets no more than now seems  
likely, that he loses on the farm  
issue.

Will this really determine the  
fate of the Republican Party at  
the polls next November?

One may quickly acknowledge  
that the legislative story will play  
a role in voters' decisions, without  
agreeing that it will make the  
whole case for or against, or even  
the biggest part.

The people judge a party, and  
their President, as governing in-  
struments. What Congress achieves  
in a particular two-year period  
could be a minor element in the  
story. They may be much more  
affected by the way a government  
executes foreign policy, plans de-  
fense, controls internal subver-  
sion.

Mr. Eisenhower is wise to stress  
constructive legislative acts. But  
he and his party will be weighed  
in a context far wider than the  
boundaries of Capitol Hill.

## Out Our Way

WHY MOTHERS GET GRAY

The WASHINGTON  
MERRY-GO-ROUND  
by DREW PEARSON

DREW PEARSON Says: Nix-  
on Trying To Patch McCarthy  
Rifts, New French Premier  
Rates High In Washington;  
Sen. McCarthy Has Tax Probe  
Powers Which Denied To Sen.  
Williams.

WASHINGTON — Vice-Presi-  
dent Dick Nixon, who has busied  
himself backstage on behalf of  
Senator McCarthy in the past, is  
busy again. He is trying to patch  
up all breaches in Republican ranks  
and get pro-McCarthy and anti-  
McCarthy Republicans back onto  
one harmonious team.

To that end, he has been hold-  
ing highly secret conferences  
which at present make it look as if  
Dick himself might emerge as  
the chief leader of the GOP.

Those attending the conferences  
have been Senators Dirksen of Il-  
linois and Mundt of South Dakota,  
both good friends of McCarthy's,  
also Len Hall, the GOP national  
chairman, Postmaster General  
Summers, the only cabinet  
member still in McCarthy's cor-  
ner; and at times Senator Fergu-  
son of Michigan. McCarthy him-  
self has attended some of these  
meetings.

The general discussion is to the  
effect that Ike himself doesn't un-  
derstand policy, so the less he  
is bothered the better. There-  
fore it has been suggested that  
Nixon should be the sole liaison  
with the White House, and that he  
will bother Ike just as little as  
possible.

Furthermore, since Nixon, a  
Californian, is something of a rival  
of Senator Knowland of California,  
the Nixon conferees would like to  
make Senator Dirksen the Re-  
publican floor leader of the Senate  
at the next session. This would be  
a son to the McCarthyites, also  
would help remove a potent Cali-  
fornian who could challenge Nixon  
for the presidency in 1956.

So far McCarthy has promised to  
go along with the boys and be  
good. He won't jump over the  
traces, he says. Of course, he has  
said this before.

Incidentally the Nixon group has  
not yet sucked in Attorney Gen-  
eral Brownell or his assistant,  
William Rogers, the latter having  
been the last Republican to try to  
patch up an agreement with Mc-  
Carthy, at Miami last Christmas.

FRANCE IS NOT OUT

Those who have seen Mendes-  
France operate in Washington ad-  
vise that we not discount the new  
premier of France. Judging from  
the heavy vote he got supporting  
his new cabinet, others in France  
feel the same.

Though Mendes-France was  
viewed with a certain amount of  
skepticism by U. S. Ambassador  
Douglas Dillon in his reports from  
Paris, the fact is that the new  
premier has had experience in  
Washington as first executive di-  
rector of the World Bank. There,  
Americans who came in contact  
with him, including the first U. S.  
head of the bank, Eugene Meyer,  
found him most friendly to the  
United States and one of the high-  
est type officials on the bank. He  
was anything but a left winger.

It was Mendes-France's con-  
tention in the early years immedi-  
ately after the war that if France  
had gone into Indo-China promptly  
and vigorously, the whole matter  
could have been cleaned up. He  
so advised American friends at  
that time.

Since then, and as the Indo-  
Chinese war has dragged on, he  
has refused to go into various  
French cabinets which have had  
no program. He now believes the  
only course is to wind up the war,  
after salvaging as much as possi-  
ble.

Americans who know the new  
premier, and who conferred with  
him when he was last here in  
September, suggest that France  
may be in for new rejuvenation  
under his leadership. After all,  
France has come through with  
some surprising strength at times  
when she was considered finished,  
including the Battle of the Marne  
when the German army was al-  
most at the doors of Paris.

McCarthy'S TAX PROBES  
Senator McCarthy's statement  
that he will investigate a Demo-  
cratic senator for wrongdoing has  
brought a sardonic chuckle from

one of McCarthy's Republican op-  
ponents, Senator Williams of Dela-  
ware.

During all of this session of Con-  
gress, Williams has wanted the  
right to probe certain income tax  
irregularities, including those of  
senators. But he has been stopped  
by the Republican high command.

Williams was given this right by  
the Democrats when they control-  
led Congress, and as a result, the  
public witnessed the strange spec-  
tacle of a Republican, Senator  
Williams, probing the tax irregu-  
larities of Democrats and given  
complete Democratic carte  
blanche to do so. Williams did an  
outstanding job.

But when his own Republicans  
took over Congress, Senator Mil-  
likin of Colorado, GOP chairman of  
the Senate Finance committee, re-  
fused to give Williams the same  
power. As a result Williams has  
been largely silent at this session.

Obvious reason why Millikin  
hobbled Senator Williams' activi-  
ties was because he was about to  
look into the tax affairs of several  
Republican senators, among them  
McCarthy and Bridges of New  
Hampshire. The latter figured in  
the big \$7,000,000 tax fix of Hyman  
Klein, the Baltimore liquor dealer  
and a friend of mystery man Hen-  
ry Grunewald.

But while Williams has been  
stymied, McCarthy has had access  
to all sorts of privileged tax re-  
turns supposed to be under the  
care of his friend, Commissioner  
T. Coleman Andrews.

WASHINGTON PIPELINE

Some of the big magazines which  
supported Ike so vigorously in 1952  
are not at all happy about Sum-  
merfield's mail rate increase. Al

Cole of the Reader's Digest, who  
handled the direct mail political  
campaign for Ike in 1952, com-  
plained to magazine publishers at  
the Greenbrier Hotel in White Sul-  
phur recently that the Post Office  
was running a smear campaign  
against magazine publishers. "We  
are being smeared," he said, "by  
our own administration."

After all the squabbling over rais-  
ing postal rates, the House Rules  
committee should send the postal  
increase bill to the House floor  
this week. This bill would boost  
the price of stamps from three to  
four cents for first-class mail and  
five to seven cents for airmail.  
The Rules committee is approving  
a two bill, raising postal workers'  
wages.

Prediction — The House will ap-  
prove the combination postal bills,  
but I also predict the Senate will  
kill the increase in stamp prices.

BIBLE THOUGHT FOR TODAY  
Thy word is a lamp unto my feet,  
and a light unto my path.—Psa.  
119:105.

Those nations that follow that  
word are incomparably higher in  
ever scale than those who depend  
on any other light whatsoever.  
Some who have abandoned it are  
always hungry and many of  
them are without shoes to their  
feet. Even physically they are  
badly off, and they have no immor-  
tal hope in all eternity.

Columbus' Cattle

There were no cows in America  
when Christopher Columbus first  
visited the New World. He brought  
cattle and other farm animals to  
the islands of the West Indies on  
his second voyage in 1495.

### FOOD POISONING

Although picnics and outings are  
fun, too many in the past have  
ended up with food poisoning out-  
breaks in Illinois, County Sanitar-  
ian warned today. "With a little  
knowledge and care, all of these  
outbreaks could have been prevent-  
ed," he said. "It's natural for us  
to like out of doors as much as  
possible in the summertime. But  
during the summer months foods  
need careful handling and protec-  
tion—especially if they are to be  
held for any length of time before  
being eaten on an outing. So, pro-  
tect your food and protect your-  
selves."

To prevent food poisoning he  
urged housewives and workers for  
church and lodge picnics to ob-  
serve the following rules:

See that before preparation food  
is clean, wholesome, free from  
spoilage and safe for human con-  
sumption.

See that utensils in which food  
is prepared and served are clean  
and free of germs. Paper utensils  
are ideal for picnic use, since they  
are compact and light, assure each  
person individual, germ-free uten-  
sils, and are readily disposable.

Don't serve custard pies and pas-  
tries, meat and meat products,  
raw milk and milk products, pou-  
ltry or salads unless kept chilled  
until time of serving.

If meats are to be served hot,  
don't cook them until just before  
they are to be eaten.

Keep fingers out of food and  
utensils.

Keep food protected against flies

## Steelworkers Reject Contract; Strike Threatens

PITTSBURGH (UP)—Union re-  
jection of a contract settlement  
offered by U. S. Steel Corp. today  
raised the threat of a strike in the  
nation's steel industry within a  
week.

The powerful 170-man wage-po-  
licy committee of the CIO United  
Steelworkers angrily rejected the  
settlement offered by U. S. Steel  
Tuesday because it did not "meet  
the requirements."

At the same time, the committee  
advised union negotiators to go  
ahead "with whatever action they  
deem necessary" to force a satis-  
factory settlement for the indus-  
try's 600,000 union members.

USW President David J. McDon-  
ald said the union would follow its  
18-year-old policy of "no contract,  
no work." The present contract  
expires June 30.

Iron Age, the national metal-  
working weekly, said it was ex-  
pected an eventual agreement  
would "comprise a wage package  
costing about five cents to eight  
cents per hour."

This would be followed by selec-  
tive increases in steel prices aver-  
aging \$2 to \$3 a ton, the maga-  
zine said.

It said improvements in business  
"strengthened the union's hands"  
and were responsible for a "stif-  
fening attitude" by the union in  
the negotiations.

The Daily Register 25c a week  
by carrier boy.

and persons coughing or sneezing  
over it.  
If these elementary principles  
of food handling are followed," he  
said, "everyone will be able to  
eat, drink and enjoy the outing,  
safe in the knowledge that there  
will be no unpleasant aftermaths."

## Guatemala Insists On New Meeting of UN

UNITED NATIONS, N. Y. (UP)—  
Guatemala, defying strong op-  
position from the United States,  
insisted today on a new meeting  
of the United Nations Security  
Council to consider the fighting in  
the Central American country.

U. S. Ambassador Henry Cabot  
Lodge Jr. warned the Guatemal-  
ans in a statement issued Tues-  
day night that they should not  
"appear to be a catspaw in the  
Soviet conspiracy to meddle in the  
Western Hemisphere."

At Sunday's Security Council  
meeting, when Russia vetoed a  
move to send the Guatemalan is-  
sue to the 21-nation organization  
of American states, Lodge bluntly  
warned the Soviet Union: "Stay  
out of this hemisphere."

"As it is," Lodge said in his  
statement, "many persons will  
wonder whether the whole imbrog-  
lio in Guatemala was not cooked  
up precisely for the purpose of  
making Communist propaganda  
here in the U. N."

Lodge said those who "contin-  
ually seek to agitate the Guate-  
malan question in the Security  
Council will inevitably be suspect-  
ed of shadow boxing—of trying to  
strike attitudes and issue state-  
ments for propaganda purposes."

The office of Guatemalan Am-  
bassador Eduardo Castillo-Arriola  
said he had drafted a request for  
a new council meeting in view of

## House Group Favors Farm Vote on Prices

WASHINGTON — The House Agriculture committee wants to let grain farmers in the politically important Midwest decide how high the government must peg their prices in the 1956 presidential election year.

It has unanimously approved legislation that would allow the growers to determine by majority vote in a government-conducted balloting next year that price support programs will prevail for wheat and corn in 1956.

Although they could not vote in the proposed referendum, city consumers and taxpayers would have an important stake in the outcome.

Under the committee plan wheat growers could vote into operation a "two-price plan" that would eliminate costly wheat export subsidies, but add about one-fourth of a cent to the cost of wheat that goes into a loaf of bread.

Written to Farm Bill

Producers of corn, the nation's major feed grain for livestock, would choose between continuance of mandatory high supports and flexible, lower supports recommended by President Eisenhower. The market price of corn, which is influenced by the government price support level, is a major factor over the long run in determining the price of meat, milk and eggs.

Plans taking the politically hot price support controversy directly to the farmers were approved by the committee and written into its "catch-all" farm bill in secret drafting sessions during the last two days.

The committee expects to finish drafting the bill late today or Thursday and vote final approval of the measure Friday. House leaders hope to call it up for floor action next week.

## Callanan Blames Anti-Unionism For Testimony

ST. LOUIS — An AFL union leader being tried in federal court here on labor racketeering charges Tuesday blamed "rabid anti-unionism" for testimony of a contractor against him.

Lawrence L. (Larry) Callanan, one of five bosses of the AFL charged with conspiring to extort \$28,016 in return for labor peace, was asked under cross examination if he knew any reason Oscar R. Burden, president of O. R. Burden Construction Co., Tulsa, Okla., should testify against him.

He replied, "I think I do. I think he is perhaps one of the most rabid anti-union contractors I know."

Burden had testified that he agreed to pay Callanan and the others on trial for assurance of labor peace on a pipeline project in 1952-53.

Callanan denied receiving money from Burden or having a luncheon with Burden at which the contractor said agreement was reached on a \$28,000 payment.

Others on trial are Carl J. (Dutch) Bianchi, L. A. Thompson, R. M. Secor and William M. Foster, all representatives of trade unions.

When asked if he at any time demanded or received any money from Burden, Callanan testified "Not one penny."

## Two Aged Men Kill Each Other in Duel

JACKSONVILLE, Ill. — A feud over a woman may have touched off a duel in which a Negro handyman and a white city employee shot each other to death, police said today.

Police Chief Ike Flynn said it was "the opinion of a lot of people" that Max Carr, 68, and William Wilson, about 70, had been "feeling" for some time over the attentions of a woman.

Flynn emphasized that police had not verified the reports. The woman was not identified.

Carr, a Negro who did odd jobs, and Wilson, an employee of the city street department, shot and killed each other on a neighbor's lawn Tuesday night. Both died almost instantly.

The two men lived alone in small adjoining houses.

An exploratory well in unproven territory is known as a "wildcat" oil well.

## Guatemala Rail Center Under Furious Attack

TEGUCIGALPA, Honduras (AP) — Anti-Communist rebel forces said today they are making a "furious air and land attack" on the important railway center of Chiquimula, 65 miles east of the Guatemalan capital.

An announcement from the headquarters of rebel chieftain Col. Carlos Castillo Armas claimed the important rail centers of Bananera, Mirales and Gualan, which were attacked Tuesday, now are securely in rebel hands.

This would give the forces seeking to overthrow the leftist regime of President Jacobo Arbenz Gudman control of a 70-mile stretch of the nation's only railway.

They claimed Tuesday to have cut the railway in several places, severing communications between the capital and Puerto Barrios, the nation's most important seaport, located on the Caribbean coast.

Chiquimula, a town of 25,000 inhabitants 30 miles from the Honduras frontier, controls a spur line to the neighboring Republic of San Salvador.

Earlier, two Guatemalan army planes were reported to have bombed two towns in Honduras, Springfield for the anti-Communist invasion of Guatemala.

A U. S. Embassy spokesman said the Honduran Foreign Office was attempting to determine whether this country had been bombed in an act of revenge.

The reports said the planes dropped three bombs, one of them a dud, on the frontier town of Copan, former advance headquarters of rebel chieftain Col. Carlos Castillo Armas, and the tobacco town of Santa Rosa.

Mr. and Mrs. Clifford Vantrease and Cecil Vantrease and daughter, Joyce, of Kalamazoo, Mich., visited their sister, Mrs. A.

James Mason makes a getaway in this scene from the new suspense hit, "The Man Between," released by United Artists, to show at the Orpheum Wednesday and Thursday.

### Ready to Evacuate Americans From Guatemala

WASHINGTON (AP)—The State Department announced today that arrangements have been made for U. S. Air Force planes of the Caribbean command to evacuate Americans from Guatemala, if necessary.

Department spokesman Lincoln White emphasized, however, that no evacuation has been ordered and that there have been no anti-American demonstrations yet in Guatemala City.

White made the statement in answer to questions about reports that the United States was preparing to evacuate Americans from Guatemala City.

He told reporters that "evacuation of U. S. citizens from Guatemala City has not been ordered. Should the situation change, appropriate measures will be taken."

White said that, so far, no American citizens have been reported injured. He said the official Guatemalan radio and press have been distinctly hostile to the United States and there is a feeling of tenseness in Guatemala City.

### Calendar of Meetings

The Dorris Heights Home Bureau unit will meet with Mrs. Carl Thompson Thursday at 7 p. m. for the lesson on "Yeast Bread Variations."

There will be a benefit singing at the Coal Bank Springs Baptist church Saturday, June 26, beginning at 7:30 p. m. This will be in tribute of the late Rev. John L. Peppersack, resident of Carrier Mills. There will be quartet singing plus other groups, and everyone is invited.

The Pastor's Aid club of the Mt. Pleasant Baptist church will serve fish and homemade sherbet Friday beginning at 4 p. m. at the church. The public is invited.

A revival is now in progress at the First Pentecost church on the corner of Lincoln and Locust streets in Eldorado. Miss Greta Bumbus, 19-year-old evangelist from Mt. Vernon, is in charge. The public is invited.

Thursday is the final day to make "Cotton Capers" reservations at the clubhouse of the Egyptian Golf association.

The Crescent Home Bureau unit will meet Thursday at 7:30 p. m. with Mrs. Howard Coyle, 24 South Vine street.

The choir of the McKinley Avenue Baptist church will rehearse tonight following prayer service.

The Town and Country Home Bureau unit will meet Thursday at 1:30 p. m. with Mrs. Helen Walker, 928 Barnett street.

At a stated meeting of the Harrisburg chapter No. 671, Order of the Eastern Star, Thursday at 7:30 p. m. there will be initiation of new members. All members and visiting members are welcome. Mamie Bramlet, W. M.

The stewardess board of the Bethel A. M. E. church is having an ice cream, pie and sherbet social on the lawn of the home of Mrs. Lela Garnett, 408 East Walnut, Saturday beginning at noon.

**Cold Exchange**  
WATERBURY, Conn. (AP)—Someone stole a refrigerator from the home of Mrs. Elizabeth Gould and left an older and smaller one in its place. The switch was made while Mrs. Gould was shopping.

### Report Slight Drop In Relief Rolls

SPRINGFIELD (AP)—A slight drop in Illinois relief rolls was reported today for the first time since last September.

Garrett W. Keaster, executive secretary of the Illinois Public Aid Commission, said the relief load in April totaled 81,205 persons, a decline of 387 from March.

Total relief payments rose from \$2,689,000 in March to \$2,704,632 in April, however, Keaster reported.

Keaster said the total number of persons receiving aid under the five IPAC programs was 269,739 in April compared to 269,427 in March, while costs were \$11,503,000 compared to \$11,482,730 the month before.

The Daily Register 25c a week

### Mitchell Says Eisenhower and Cabinet Failed to Stand Up for Rights

SALEM, Ill. (AP)—Chairman Stephen A. Mitchell of the Democratic National committee says President Eisenhower and his cabinet failed to "stand up and defend their rights under our Constitution" in the Army-McCarthy dispute and other differences with the Senate.

Speaking here Tuesday night in support of Al Imle, 23rd District Democratic congressional candidate in the fall elections, Mitchell said the widely publicized hearings Department and Sen. Joseph McCarthy (R-Wis.) had shown the inefficiency of the Republican administration and the disunity in its ranks.

Mitchell said the "radical Republicans of the Senate" were trying to run the executive branch of the government, "bullying and brow-beating the members of the President's cabinet." He said they had tried to control hiring and firing of personnel, and had set up a "network of informers in the executive branch to provide senators with stolen secret documents."

He recalled no junior appointment to the foreign service had been made since October, 1952 and a study commission last week admitted the State Department must be reorganized if it is going to attract and keep able personnel.

"This has resulted not just from the recklessness of senators. It is also the result of the failure of the President and his cabinet members

### Japanese Troops to Replace Americans In Northern Japan

TOKYO (AP)—A Far East Command spokesman indicated today plans are being made to replace American soldiers in northern Japan with Japanese troops but he declined to confirm reports the switch will be made this summer.

"It is obvious that as the Japanese forces become better equipped, organize additional units, improve their status training and generally become increasingly effective, they will be expected to assume more and more responsibility for the defense of Japan," he said.

There are about 20,000 species of birds in the world, about 800 of them being in the United States.

Mitchell predicted the forthcoming autumn campaign by the Republicans will be "half Eisenhower and half McCarthy—half smile and half sneer. Eisenhower will take the high road. He will appear at the state fairs and do the smiling. But, down beneath, the bully-boys will take the low road."

More than \$30,000,000 will be spent in modernizing Irish railroads, extending the services in producing diesel engines, reducing the fuel bills one half and adding 340 passenger cars and 3,300 freight cars.

Belden Abrams, 133½, Philadel-  
phia (10).

WORCESTER, Mass.: George  
Araujo, Providence, R. I., vs.  
Iraxton Reed, New York, can-  
celled because of excessive heat  
in Mechanics Hall.

MIAMI BEACH, Fla.: Bob Sat-  
terfield, 176½, Chicago, knocked  
out Cleveland Williams, 202, Tam-  
pa, Fla. (3).

DETROIT: Kenny Lane, Detroit,  
Mich., outpointed Elmer Lakatos,  
Youngstown, Ohio (8).

## Meek Predicts

**Douglas Will  
Be 'Snowed Under'**

SALEM, Ill. (AP)—Joseph T. Meek,  
Republican candidate for U. S.  
senator, today said followers of  
Sen. Paul H. Douglas (D-Ill.) will  
"find him snowed under an ava-  
lanche of votes against his so-  
cialism, progressive liberalism or  
whatever else he wants to call  
his porch-door approach to commu-  
nism" in the November election.

Speaking at the 71st annual Ma-  
rión county soldiers and sailors  
reunion here, Meek recalled a visit  
with President Eisenhower in May.  
"His (the President's) last com-  
ment to me was 'go out and beat  
that fellow Douglas'," Meek said.  
"I am going to follow these in-  
structions."

The Republican candidate charged  
that "the assertion that it is  
necessary to elect Democrats to  
support Mr. Eisenhower's pro-  
gram is one of the most deceptive  
reports the divided Democratic  
party has yet issued."

Republican office holders and  
candidates had their day at the  
reunion following observance of  
Democratic day Tuesday. Meek  
and Rep. C. W. Vursell were the  
main speakers.

The week-long celebration will  
end Saturday and is expected to  
attract 250,000 persons during its  
six-day period. American Legion  
day will be observed Thursday  
with a parade followed by speeches  
by top national and state Legion  
officers.

## Aged Feast

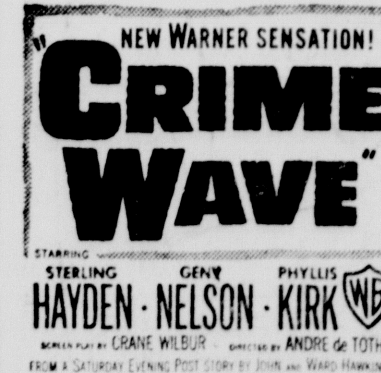

Four or five generations of a  
Swedish family may often use  
one jar of yeast. The jar is  
passed on as an heirloom, and,  
in many cases, yeast has been  
kept growing in one bowl for 175  
years.

## Looking AT Sports

### ANSWERS TO THE SPORTING NEWS BASEBALL QUIZ

(1) Pierce. (2) Philadelphia.  
Roberts, Simmons, Spahn and  
Dickson were the N. L. pitchers in  
the '53 game. Dickson was with  
Pittsburgh last season but is with  
Philadelphia this year—giving the  
Phils three pitchers who appeared  
in the game last year. (3) The  
National League has won 8 games,  
the American 12. (4) Gomez,  
winning in 1933-35 and 1937. (5)  
Minnos singled in the ninth in-  
ning scoring Fain.

Milwaukee continues to meat,  
money — big money — to visiting  
clubs, reports Oscar Ruhl in THE  
SPORTING NEWS. Leo Ward of the  
Cardinals says that the \$30,000  
check he picked up in Sudsville for  
a recent series with the Braves  
was the largest he had taken out  
of a city since he became traveling  
secretary of the Redbirds back in  
1938. And Bob Rice, the road  
secretary of the Pirates, was hand-  
ed a \$20,000 check for the Bucs  
share over the June 5 weekend,  
which represented the largest tak-  
ing by a Pittsburgh club in Rice's  
eight years on the job.

John Romonosky came up with  
one of his best performances of  
the season recently, getting credit  
for the victory as Columbus pound-  
ed out a 9-6 win over Minneapolis  
in an American Association game.

John hurled 6 2-3 innings, allow-  
ing just four hits, retiring five on  
strikes and walking five. He had  
a perfect night at the plate, hitting  
three for three, including a dou-  
ble, and scored twice.

Les Pinkham of West Frankfort  
was Romonosky's catcher. Pink-  
ham has been doing a majority of  
the catching for the Columbus  
club in recent games.

Baseball's newest iron man, 28-  
year-old Eddie Yost of the Sena-  
tors, has played more than 700  
consecutive games since July 6,  
1943, which is only nine years be-  
hind Lou Gehrig's record of 2,130  
games in a row for the Yankees.

When the Giants signed Paul  
Giel to a bonus contract calling  
for an estimated \$75,000 recently,  
it was revealed that the two-sport  
All-American from the University  
of Minnesota selected the New  
York club because of their sociable  
players. Giel had met such Giant  
players as Sal Maglie, Hoyt Wil-  
he and West Vestrum at mid-  
winter sports dinners in Minne-  
apolis and was impressed and flat-  
tered with the attention they gave  
him. Other clubs might have been  
willing to offer 75 grand to the  
young pitcher, but they couldn't  
match the good impressions Giel  
had formed of the Giants.

The recreational program at Car-  
rier Mills, being conducted at the  
CM high school, is attracting a  
large group of boys daily. Two  
tennis courts have been construct-  
ed since the program started, add-  
ing to the variety of the activities.

## Palace, Excel Win Games in Kiwanis League

Rain yesterday afternoon caused  
cancellation of two games in the  
Kiwanis baseball league play, but  
two other games were played prior  
to the shower.

Palace Clothing turned back  
Turner's Cafe, 11-10, in one of the  
tiffs while Excel Market trimmed  
Athletic House, 11-7, in the  
other encounter.

Butch Biggs, handicapped  
with a broken left arm, amazed  
spectators and fellow players by  
hurling for the Turner nine. With  
his left arm in a sling, Biggs turned  
in a good performance with his  
right, although losing Henshaw  
was the winning hurler.

Karnes was on the bill for the  
winning Excel club. Foster was  
tagged with the loss. Hathaway  
was the big hitter of the day get-  
ting three for three for the losers.  
Speaks and Karnes got two for  
three for the winners.

### Games Today

3 p. m.  
Elks vs. Turner's cafe, town  
park.

5 p. m.  
Deuces vs. Coca Cola, town  
park.

Jaycoes vs. Excel Market, Tay-  
lor field.

### Games Friday

2 p. m.  
Sahara Coals vs. Palace Cloth-  
ing, Taylor field.

5 p. m.  
AAA vs. James Bros., town parl.

Ronnie's Studio vs. Pickford  
Flowers, Taylor field.

Athletic House vs. Excel Mar-  
ket, town park.

## Hitchhiker Takes Cash and Vacation Fishing Equipment

LAWRENCEVILLE, Ill. (AP)—  
Ora Shulaw, an oil refinery  
worker, is an ardent fisherman  
who won't do much fishing on  
his forthcoming vacation be-  
cause he picked up a hitch-  
hiker.

Shulaw and his wife were  
driving to Olney Monday when  
he gave a ride to a young man  
about 30. When they neared Ol-  
ney, the man pulled a revolver  
from a box and ordered Shulaw  
to drive down side roads. Finally  
he ordered Shulaw back to  
Lawrenceville and when they  
reached the point where he was  
picked up, the gunman took  
\$155 in cash, the car and \$100  
worth of new fishing equipment  
from Shulaw and disappeared.

## Trucks Wins His 10th Game For White Sox; Giants Extend Lead Over Dodgers

By MILTON RICHMAN  
United Press Sports Writer  
Virgil Trucks insists he "just  
rarely backs and fires," and it could  
be that's all it takes to rekindle  
the White Sox' flickering pennant  
flame.

Trucks, bent upon winning 20  
games this season for the second  
straight year, racked up his 10th  
victory by whipping Washington,  
7-5, Tuesday night. His triumph,  
along with the Athletics' 4-1 deci-  
sion over the Indians, moved the  
White Sox within three games of  
the American league lead.

"Ever since I broke into base-  
ball," Trucks says, "Every man-  
ager has told me the same thing—  
'just rare back and fire'."

Trucks' formula accounted for  
four strikeouts against the Sena-  
tors and although he was nicked  
for homers by Jim Busby and Roy  
Sievers and left the game with  
two out in the ninth, he joined  
teammate Bob Keegan and Harvey  
Haddix of the Cards as the only  
pitchers in the majors with as  
many as 10 triumphs.

Sima Pitcher Al Sima, dealt by the  
White Sox to the Athletics a week  
ago, made his first starting as-  
signment of the season a winning  
one by holding the Indians to four  
hits. He was credited with his first  
victory of the year although Sonny  
Dixon relieved him when the Tribe  
kicked up at the eighth. Philadel-  
phia wrapped up the game with  
three runs in the fourth off loser  
Early Wynn.

Sammy White's 12th inning dou-  
ble scored Harry Agganis with the  
run that snapped a 1-all tie and  
helped the Red Sox to a 3-1 tri-  
umph over the Orioles. Billy Con-  
soli's single tallied White with the  
second run of the frame as Bob  
Fury suffered his seventh loss.  
Ellis Kinder was credited with his  
fourth conquest.

Steve Gronick scattered eight  
Yankee hits while hurling the Tig-  
ers to a 4-1 triumph. Bob Wiesler  
gave up all of Detroit's runs and  
was the loser.

The Giants stretched their Na-  
tional league lead to two full  
games over the Dodgers as they  
beat Milwaukee, 3-2, while Cin-  
cinnati swamped Brooklyn, 13-1.

### Monte Irvin the Hero

Monte Irvin was the Giant hero,

## Seixas, Trabert Lead Yanks in Wimbledon Play

WIMBLEDON, Eng. (AP)—Def-  
ending champion Vic Seixas of  
Philadelphia and top-seeded Tony  
Trabert of Cincinnati lead powerful  
American forces today into second-  
round singles competition in the  
Wimbledon tennis championships.  
So far, the Yanks have had  
things pretty much their own way  
through the first two days of play,  
with only five lesser-lights elimi-  
nated from the group of 17 players  
entered in men's singles and two  
eliminated from the 13 in women's  
singles.

Neither Seixas, who is seeded  
fourth despite his role as reigning  
champion, nor Trabert was ex-  
pected to have any difficulty to-  
day. Seixas was matched against  
Nicolo Pietrangeli of Italy and  
Trabert in a center court match  
against Owen Williams of South  
Africa. Both U. S. stars won  
straight-set victories in the open-  
ing round on Monday.

One American to Fall  
One strong American entry is  
certain to be eliminated today,  
since one of the center court  
matches brings together seventh-  
seeded Bridge Patty of Los Angeles  
and Hugh Stewart of Pasadena,  
Calif., ranked 16th in the United  
States.

Another Yankee is expected to be  
 ousted when Herb Flam of Beverly  
Hills, Calif., ranked 15th in the  
United States, plays former Aus-  
tralian champion Ken Rosewall,  
who is seeded fourth here. And  
Andy Paton of Ann Arbor, Mich.,  
is an underdog in his match  
against Kurt Nielsen, Danish  
champion.

However, 40-year-old Gardner  
Mulloy of Miami, Fla., seeded 12th,  
was a heavy choice against B. E.  
Crouch of Britain.

Maureen Idle Today  
Top-seeded Maureen Connolly,  
the defending women's champion  
from San Diego, Calif., who easily  
won her opening match Tuesday,  
was not scheduled to compete to-  
day, but the American girls who  
were scheduled all rated as favor-  
ites.

Fourth-seeded Louise Brough of  
Beverly Hills, Calif., was matched  
against Erika Volmer of Ger-  
many; Dorothy Levine of Chicago  
faced Mrs. J. Roos of the Nether-  
lands; Baba Madden Lewis of New-  
tonville, Mass., met Miss J. Knight  
of Britain; Barbara Bradley of Pe-  
no, Nev., met Fanny Ten  
Rosh of the Netherlands, and  
Barbara Kimbrell of Los Angeles  
played Pat Harrison of Britain.

Oliver, who raised Rio Grande  
to national basketball prominence  
along with Clarence (Bevo) Fran-  
cis, resigned to join his protegee  
with the Harlem Globetrotters,  
famed touring basketball organiza-  
tion.

## Name Coach at Rio Grande College

RIO GRANDE, Ohio (AP)—Herman  
Spencer Bush, athletic director and  
physical education instructor at  
Lindsay-Wilson Junior College in  
Columbia, Ky., has been named to  
succeed Newt Oliver as athletic  
director and basketball coach at  
Rio Grande college.

Oliver, who raised Rio Grande  
to national basketball prominence  
along with Clarence (Bevo) Fran-  
cis, resigned to join his protegee  
with the Harlem Globetrotters,  
famed touring basketball organiza-  
tion.

coming off the bench as a pinch  
hitter in the ninth to single home  
the winning run off Gene Conley.  
Willie Mays hit his 21st homer for  
the Giants while Hank Aaron hit  
his eighth for the Braves.

Bud Podbielan limited Brooklyn  
to two hits—one of them an eighth  
inning homer by Carl Furillo—  
while the Reds rapped three of  
four Flatbush hurlers for 17 hits.  
Jim Greengrass walloped a pair  
of homers, his 12th and 13th, for  
the Reds, while teammate Andy  
Seminick also hit for the circuit.

Robin Roberts of the Phillies  
struck out 11 men and pitched a  
six-hitter to beat the Cubs, 4-1.  
The only Chicago run was a result  
of Hank Sauer's 21st homer in the  
fourth inning.

The Pirates-Cardinals game was  
postponed because of rain.

## Luther is Named Head Cage Coach at DePauw University

GREENCASTLE, Ind. (AP)—De-  
Pauw university announced today  
that Calvin C. Luther, freshman  
basketball coach at the University  
of Illinois, has been signed as head  
basketball coach at DePauw.

Luther, who starred as a col-  
lege player at Valparaiso univer-  
sity, will take over the job next  
fall succeeding Robert R. Harvey.  
Harvey relinquished his head bas-  
ketball coaching duties but will  
remain as head track and cross-  
country coach and associate pro-  
fessor of physical education.

Luther hails from Bay View high  
school in Milwaukee. He played  
basketball four years at Valparaiso  
and was named on the college all-  
star team which toured with the  
Harlem Globetrotters in 1951.  
Illinois hired Luther in 1951 and  
he has been there ever since.

### Pride of Midway Birthday Club Has Party After Lodge

Following the regular meeting of the Pride of Midway Rebekah lodge Monday evening the birthday club honored four members having birthdays with a party.

The honored were Gladys Wineman, Viola Smith, Katherine Estes and Mabel Aldridge.

Refreshments of dainty sandwiches, cookies and punch were placed on a long table centered with a "lazy Susan." Pink and green napkins and plates helped to carry out the color theme.

Present were Pavah Whiteside, Eva Coffee, Marie Frailey, Velma Hughes, Ruby Hilliard, Nina Vaughn, Stella Sowers, Thelma Burroughs, Anna Lou Sowers, Margaret Schmitz, Elizabeth Vaughn, Louise Butler, Mildred Upchurch, Mabel Stricklin, Cordelia York, Alice Armistead and the four honored guests.

Other members present were Miss Mary Price, Miss Meriam Evans, Miss Irene Beasley, and Miss Elizabeth Myrna of Eldorado, Mrs. Mary Lois Dabney, Mrs. Annabelle Melton, Miss Ruby Thomas, Miss Jeanette James, Miss Iris Craggs, Mrs. Sloan and Miss Mary Richardsdon.

Election of officers was held and announcement made of the national convention of Business & Professional Women's clubs to be held in St. Louis next week. Some of the local members plan to attend some of the sessions.

Mr. and Mrs. Robert Best arrived in Harrisburg Tuesday evening from Santa Monica, Calif. They will visit with her parents, Mr. and Mrs. John Thad Gaskins, before continuing to Toledo, Ohio, to visit relatives of Mr. Best. Returning here later in the summer, they will continue back to California where Mr. Best is a teacher in the elementary schools.

Mrs. Mary Musgrave had visiting her yesterday Mr. and Mrs. R. W. Suter and four sons from San Francisco, Calif. Mr. Suter, who is with the FBI, is being transferred to Washington, D. C. Mrs. Suter, the former Helen Irwin and niece of Mrs. Musgrave, attended the Harrisburg Township high school.

### Hospital Notes

**Harrisburg Hospital**  
Admitted: Mrs. Novella Sherrod, 413 West Raymond.

## Car Thieves Shift Into High on 1954 Models

### Stolen Autos Soar Toward A New Record

By DOUGLAS LARSEN  
NEA Staff Correspondent  
WASHINGTON — (NEA) — The country's mob of car thieves has shifted into high gear on the new 1954 models.

Experience shows there's usually a drop in car thefts for a while after new models hit the market. But it doesn't take the auto thieves long to master the tricks of stealing them.

And early reports indicate that the highly advertised 1954 models are now being stolen at a rate which will set a new record again this year.

FBI figures reveal that car thefts set a new high in 1953 with 226,530 cars, valued at \$130,000,000, stolen. This was an increase of 5.2 per cent. Of this total, 13,000 autos valued at more than \$14,000,000 were never recovered.

Automobiles are now the biggest, most costly single item of stolen property in the U. S.

General Motors has built a new feature into its cars this year in an attempt to stem the rising rate of auto thefts. But after long research on the problem, the car makers have just about decided that it's the owner, and not the car, that's responsible for its being stolen.

FBI Director J. Edgar Hoover is in accord with this general principle.

One of the first tricks a car thief has to master on a new model is how to cut the wires and "jump" the ignition switch. GM has tried to frustrate this by designing an instrument panel which makes the ignition switch terminal very inaccessible. They've added more terminals, which makes it especially confusing to the novice.

In one case, if a thief jumps the wrong terminal he puts the starter into continuous engage-

THE GETAWAY:—Accomplice jumps wires as thief waits to roll.

**FBI'S HINTS ON  
PROTECTING CAR**  
WASHINGTON — (NEA) — Here are some helpful hints by J. Edgar Hoover to motorists for protecting their cars against thieves:

1. Make certain the car is locked when unattended. Lock both the ignition and the doors.  
2. Avoid parking the car in dark or unlighted streets at night for lengthy periods.  
3. When necessary to park the car for any length of time, make periodic checks of its safety, if feasible.

4. Do not leave packages, luggage or other valuables in a parked car where these articles can be observed by passers-by.

5. Caution should be exercised to avoid purchasing a stolen car. Such cars are often offered at a bargain under the market price.

ment, which prohibits him from getting very far.

Car makers once tried locks for the steering gear and wheels. These were abandoned when it was discovered that they tended to

cause accidents. This hazard wasn't worth the protection they afforded against thieves.

Car makers have also stopped trying to put fancy, burglar-proof locks on the cars. Determined thieves, it was learned, quickly devised ways of putting wires through the ventilator sections of the windows and tripping the handle or lock.

On this year's models, most car makers have also dropped the hood latch which connects to the dashboard inside. This, too, was supposed to be a protection against thieves. But the crooks mastered it so quickly it wasn't worth the extra cost, the makers decided.

The growing number of car thefts by juveniles is an especially disturbing fact to Hoover and other law enforcement officials. More than half of the persons arrested for auto theft in 1174 cities in the U. S. were under 18.

In addition to that, however, Hoover says that a large number of cars are stolen by organized rings of professional thieves.

The FBI comes into the picture on a car theft only when it is transported across state lines. But it has the national statistics through compilation of its Uniform Crime Reports.

Many studies have revealed that the greatest single incentive to auto theft has been the carelessness of motorists in leaving their cars unlocked with the ignition keys in some readily accessible place.

In one city, according to a report by the American Automobile Association, a five-year study revealed that 92 per cent of the automobiles stolen had been left by their owners unattended and with the keys conveniently left in the ignition lock.

Not long ago a check by one police department revealed that almost 15 per cent of all cars parked at the curb either had the key in the ignition switch or in some handy place with the door unlocked.

The AAA is constantly warning its members that a car owner who leaves his key in the lock can be held responsible by the courts if someone comes along, steals his car and has an accident.

## Miss Lotella Wesley Receives Degree; Will Teach at Carrier Mills High School

Miss Lotella Wesley, daughter of Rev. and Mrs. Clold Wesley, Eldorado, received her Bachelor of Science degree in education at Southern Illinois university on Sunday, June 13.

During her four years at Southern, Miss Wesley was office secretary in the Department of Health Education. This summer she will be employed as secretary to Rev. L. H. Moore, Secretary of Evangelism, and George Wheeler, Brotherhood Secretary, of the Illinois Baptist State Association.

Miss Wesley will teach com-

merce and English the coming year at the Carrier Mills high school, Principal Warren G. Jennings has announced.

Miss Wesley is a member of Pi Omega Pi, honorary business education fraternity, and was vice president of this organization the past year. She was an active member of the Baptist Student Union and last year was secretary of the B. S. U. Executive Council. She received a pin for four years' membership in chapel singers, a student choir of mixed voices which presents music concerts on campus and in surrounding churches. Last year she was music director at Marion Street Baptist Chapel in Carbondale.

Miss Wesley was also a member of the Commerce club, Future Teachers of America and as president of an organized girls' house- was elected to membership in Women's House Council.

**Delores Brothers Hostess  
To Mills Maidens 4-H Club**  
The Mills Maidens 4-H club met at the home of Miss Delores Brothers.

Present were Mrs. Marvelle Sutton, Beverly Beavers, Marilyn Jamerson, Jo Kathryn Gullledge, Pat Stricklin, Lorna Jane Dallas, and two new members, Donna Reid and Edna Hanold, and the hostess, Delores Brothers.

Mrs. Pete Holmes was a guest. Refreshments were served. The next meeting will be at Moore's Grove.

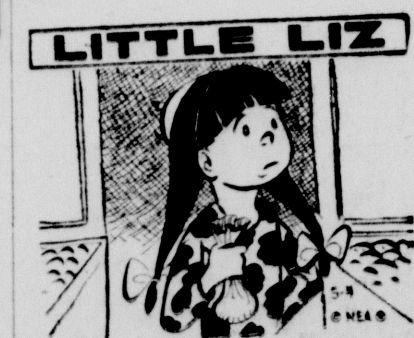

**Friends Celebrate Birthday  
Of Mrs. Eva Nolen Recently**

Friends gathered at the home of Mrs. Eva Nolen recently in honor of her birthday.

A delicious meal was spread at noon and "Happy Birthday" was sung to Mrs. Nolen after which she opened her lovely gifts.

During the afternoon games were played and prizes awarded to Mrs. Nellie Sweet, Mrs. Nellie Cast, Mrs. Della Wolfe, Mrs. Mary Tanner and Mrs. Martha Hood. Mrs. Tanner also won the grand prize.

Those present to enjoy the day were Mesdames Della Wolfe, Nellie Cast, Nellie Sweet, Martha Hood, Mary Tanner and the hostess.

## A Revolution in Motor Oils Reduces Wear 40%

**WORLD'S FIRST!** Automotive engineers and lubrication experts know that the toughest standard ever set up for automobile lubrication is the Mil-O-2104 Supplement 1 test. And the first all-weather motor oil to meet the severe requirements of this test is the revolutionary new Phillips 66 Trop-Artic.

Compared to ordinary motor oils, new Trop-Artic reduces wear 40% or more! It cuts oil consumption 15% to 45%. It keeps pistons cleaner. This new oil can even double the life of your car's motor! And it extends gasoline mileage by reducing friction.

Trop-Artic is a superior all-weather motor oil... S.A.E. 10W-30. It can be chilled to a temperature below zero, and still flow easily for quick starting. Yet at 180° it retains the film strength needed for protection at high temperatures. Get new Trop-Artic Motor Oil from your Phillips 66 Dealer.

—and Another Phillips 66  
Exclusive

### Flite-Fuel

FOR YOUR CAR!

Phillips 66 Flite-Fuel is the new gasoline... the only gasoline... with the added super aviation fuel component Di-isopropyl.

Flite-Fuel brings you more power, higher anti-knock, longer mileage, plus controlled volatility, and the clean-burning qualities for which Phillips 66 Gasoline is famous. Flite-Fuel is the perfect companion product to Phillips 66 Trop-Artic All-Weather Motor Oil. They go together for better engine performance.

### Modern Students Best Spellers, Survey By Dr. Wendell O. Lanton, Shows

Is there a scientific answer to the much-debated question of how today's children compare in scholastic achievement with youngsters of about a generation ago?

A report released by Northwestern university indicates modern schools are doing a better educational job with the "three R's" than their critics have supposed. A doctoral study by Dr. Wendell O. Lanton of third and fifth grade pupils enrolled during 1953 in eight public schools of Evanston, Illinois, shows their achievement in reading to be superior to that of third and fifth grade pupils in 1934. As for spelling and arithmetic, the two groups, totaling 1,290 pupils, split the honors.

**Better Spellers, Readers**  
Northwestern officials said that to the best of their knowledge this is the first study to compare students of today with those of earlier years on the basis of identical tests, the results of which were analyzed by elaborate statistical methods in order to determine the significance of differences.

When the results of Dr. Lanton's thousands of computations were summarized, these were the statistical findings:

In reading, today's children made significantly higher scores.

In spelling, third grade children of 1953 made significantly higher scores than were made in 1934; fifth grade pupils showed no significant difference from their 1934 predecessors.

In arithmetic, the 1934 pupils were significantly superior on that part of the test relating to arithmetic fundamentals, while both grades in both years scored about the same on arithmetic problems.

The composite arithmetic scores slightly favored the 1934 third grade group. But the composite scores of today's fifth grade children were significantly higher.

**Classroom Tests**  
Total achievements scores significantly favored modern schools. Furthermore, the average intelligence and the average age of the children were not significantly different, indicating such factors do not account for the higher scores made by today's children.

Too, the tests were given under classroom conditions without informing either students or teachers that they were participating in a special experiment.

Not only did the 1953 pupils take the same tests given in 1934, but the original tests were photographed so that such elements as type size and test format could be reproduced exactly for the 1953 test group. The 1953 dates on which the tests were given were as near as possible to the dates on which they were originally administered.

The study is hailed by educators as one of the few attempts to judge current criticisms of modern schools by factual data instead of opinion based upon casual observation.

**Criticism is Not Valid**

Dr. O. M. Chute, superintendent of Evanston elementary schools, said he "hoped this study will serve as a pattern for other school systems to follow in securing reliable evidence to evaluate the work of today's educators."

The 40-year-old Dr. Lanton, a teacher for 13 years in Evanston elementary schools, stated among his conclusions:

"The results of this investigation suggest that educational attainment has not deteriorated in the past 20 years. Accordingly, it seems the adverse criticism of public education so frequently heard may not prove valid. The technique used in this investigation should be applied generally in many other localities to verify or disprove the foregoing statement."

Dr. Lanton began preparations for his study early in 1952. His 251-page report, the product of more than a year's statistical analysis of the tests, was submitted to the Northwestern university graduate school this spring. The results were made available following the award of Dr. Lanton's doctor's degree at Northwestern commencement exercises.

**Other Tests Needed**  
He received his bachelor's degree from Southern Illinois university and his master of arts degree from Northwestern. A member of Phi Delta Kappa, honorary education fraternity, Dr. Lanton has specialized in guidance, child development and reading. An artist by avocation, his works have been shown in several exhibits.

His investigation was made with the approval of the board of education of the Evanston elementary schools. Superintendent Chute stated

that "although we are pleased with the results and next year plan to begin a similar study at the junior high school level to find out if these gains persist, we do not maintain that this sampling of subject-matter achievement represents the sole objective in the public schools."

"There are other areas such as citizenship, character and many intangibles of human personality that need to be taken into consideration in any total appraisal of our modern schools."

**Civil Service Exams at  
W. Frankfort June 26**

The Illinois Civil Service Commission has announced that examinations for cottage parents and attendants will be held at West Frankfort community high school on Saturday, June 26. Early employment opportunities will be available for men, women, and couples in State schools and institutions in the northern part of the state.

Persons interested in these positions may apply at the West Frankfort Community high school at 9 a. m. CST, Saturday, June 26.

In deep midsummer, dresses that are both airy and practical fill a wardrobe void. These three are in nylon, need only a light sudsing, make good traveling companions. Embossed print (left) with Empire bodice has skirt completely lined in nylon net for wide look. Nylon velvet trim on dress with gathered neckline (center) is used to bind neckline and brief sleeves and to form front tie. This is a junior. For the mature figure (right), there's this brown-and-yellow print with crossed and folded front pleat for walking ease. All three designs are by Bloomfield. Prints range from geometrics to abstracts, are scaled to figure size.

## Social and Personal Items

**Methodist Mother Thompson  
President Appoints Committees**

Mrs. Pat Sullivan was hostess recently to the Mother Thompson guild of the First Methodist church. The meeting opened with prayer by the president, Mrs. Ted Wolfe. Mrs. Howard Coyle gave the devotion, "Returning to God," taken from Hosea 6 and 7. This was fol-

lowed by the pledge service during which time Mrs. Larry Barnhill, assisted by several members, gave short talks on the projects for which the money is used.

During the business meeting roll call was made and the minutes of the previous meeting were read. The president appointed the committees for the year which are as follows: Telephone, Mrs. Cecil Pankey Jr., Mrs. Harvey Clore Jr., and Mrs. Bob Norman; finance, Mrs. Pat Sullivan, Mrs. Larry Barnhill, Mrs. Howard Coyle, Mrs. Darrel Piper and Mrs. Sam Leberman; visitation, Mrs. Harold Parker and Mrs. Kenneth E. White; and organization, Mrs. C. Wayne Brown, Mrs. Bob Norman and Mrs. Kenneth E. White.

The hostess, assisted by Mrs. Wolfe and Mrs. Piper, served refreshments at the close of the meeting.

**Mr. and Mrs. Milo Lambert  
Honored With Surprise Party**

Following a gospel song program by the Egyptians at the Karpers Ridge church Sunday evening a surprise household shower was given in honor of Mr. and Mrs. Milo Lambert and daughter, Stancel Sue, members of the quartet. The Lamberts are moving soon to Moline where Mr. Lambert has employment.

The host and hostess for the evening were Mr. and Mrs. Ray Vinyard. Best wishes for future success were in order and many nice and useful gifts were received.

Two large cakes, appropriately decorated for the occasion, and iced drinks were served to the following guests: Mr. and Mrs. Otis Ferrell, Mrs. Jason Johnson, Mr. and Mrs. Jimmy Lambert and sons, Mr. and Mrs. Harold Heffner and family, Mr. and Mrs. Bill Watson and children, Mr. and Mrs. Lester Darnell, Billy Ewell, Mr. and Mrs. Virgil Ewell, Mr. and Mrs. Carl Winkelman, Mr. and Mrs. Charles Braden, Rev. and Mrs. Clifford Potter, Mrs. Lydia Winkelman, Mr. and Mrs. Douglas Lambert, Roy Thurmand, and Mr. and Mrs. Clyde Bebout and children, Mr. and Mrs. J. T. Love, Mrs. Velma Hale, Mrs. Ethel Gintert, Rev. and Mrs. Frank Waters and son, Mr. and Mrs. Merle Ragsdale and daughter, Marilyn, Mr. and Mrs. Charles Hines, Mr. and Mrs. Henry Winkelman and Mr. and Mrs. Ray Vinyard and children.

The U. S. Army has created a "package" towboat that can be put together in water to tug barges in extremely shallow inland waterways overseas. When assembled, the tug is 96 feet long and operates in a draft of two and one half feet.

## Wedding Ring Taste Still Old-Fashioned

NEW YORK — The narrow, unadorned gold wedding band is the national favorite of brides today, as it was in her grandmother's day.

But gaining popularity is the wide gold band, which accounts for about 20 per cent of the pre-June sales, according to J. R. Wood and Sons, the nation's largest manufacturer of wedding and engagement bands.

Today's bride probably will be wed in a double-ring ceremony. The company said 90 per cent of its rings are sold in pairs, compared with 15 per cent 10 years ago.

## Do Wonders For Your Skin Overnight!

Lanolin Plus Liquid is the patented form of concentrated lanolin that penetrates your skin. Used as a cleanser before retiring—then a few more drops quickly massaged in, and you'll awaken next morning to discover that a very definite miracle has happened. No feeling of skin dryness at all—and an extra softness and extra smoothness that is new. But more!

As your skin becomes softer and softer and smoother and smoother, those disturbing, premature, dry-skin crows-feet and wrinkles really fade. Get your bottle of Lanolin Plus Liquid today. Use it tonight. You'll be a happier woman tomorrow morning. All this for but a dollar, plus tax, at any good store.

\* If you spent \$1,000, you could not get more beauty help than you get from a \$1 (plus tax) bottle of Lanolin Plus Liquid.

# STREET ROD

by Henry Gregor Felsen

Copyright 1953 by Henry Gregor Felsen. Printed by arrangement with the publishers, Random House, Inc. Distributed by NEA Service.

**THE STORY:** Ricky Madison's car craze at the age of 16 is a source of worry to his parents. Not only do they fear an accident, since they know that Ricky's friends are inclined to be reckless in their own cars, but Ricky is under the influence of Merle Connor, a lazy, disreputable mechanic, who is helping Ricky build his "hot rod."

To Merle's surprise he found himself drawn into Ricky's project with almost as much enthusiasm as Ricky himself had. He didn't try to explain it to himself. All he knew was that he stopped being bored when it was time to work on the old coupe. Stopped sitting around wondering what to do after he lost his garage. He was beginning to feel some pride in his place. Once Ricky had cleaned it up and made a place for the tools it looked pretty good.

The way Ricky jabbered about doing custom work. The kid hardly knew the wheels from the brake drums. But the idea fired Merle. Without the spirit to plan for himself, he easily hooked on to the plans Ricky made. Under Ricky's questioning, things came back to Merle that he thought he had forgotten years before. Items of knowledge about cars and motors. Tricks for improving performance. Old formulas for power that he had learned drifting from shop to shop and then forgotten. To his own astonishment he began to read again. First one magazine on cars that Ricky had been carrying. Then he'd ask to read Ricky's entire collection.

Ricky drove his coupe into the garage and got out. "She runs like a top," he called to Merle. Merle walked over slowly, a cigarette dangling from his lips. "You been able to take Link Allen yet?" Ricky scowled. "No. But I will. You wait and see."

"I'm waiting," Merle said. "The next money I get ahead," Ricky said, "what should I put on the coupe?" "Don't be all in a rush all the time," Merle said. As he spoke, a certain dreamy quality came into his voice. "The way you get money in little dabs. I'll tell you what I think you ought to do. Get a race-type air cleaner for the carb."

"Stack's better," Merle said. "It's dusty country, son." "Oh ... yeah ... what next, Merle?" "Then you ought to save for dual headers and pipes. You'll pick up some horsepower and performance there."

"And they got that mellow tone," Ricky sighed. Merle snorted, but he also was thinking of the sweet deep sound they'd make. "After that we'll beef up the ignition, and then see if we can't put another carb on. Two pots will carry you fine for street use. Then we'll put on a three-quarter grind cam. That might not be according to the book, but since we've got to put on a piece at a time, that's as good a way to add on as any."

"How about stroking and boring?" Ricky asked. "And a high-speed rear end?" Once we start, we might as well go all the way. "We will, we will," Merle said petulantly. "But I don't have everything we need to work with."

"Well, the power end will be your department anyway," Ricky said. "I'm going to be the design boy. And I've got some designs in mind that are out of this world!"

"And need a Detroit setup to build, I bet," Merle scoffed. "Maybe not," Ricky said. "We don't have to use steel. Maybe we can come up with something in plastic."

"We might at that," Merle said, grinning. "You just take that broom and think about it." Ricky returned to his sweeping. He could see them now, in a modern office, with fancy furniture and lights. Sitting at a huge desk, looking at plans while the newspapermen took their picture.

The Daily Register 25c a week by carrier boy.

CHARMER—Shapely Nancy White perches on a Miami Beach, Fla. coral wall and lends some excitement to the scenery for vacationers at the southern resort.

"Top Auto Designers at work. Nation's Leading Design Team Wins International Competition for Best Car in the World." Sharon would be in the picture, too, of course. She was his secretary. Suddenly Ricky laughed.

"What's funny?" Merle asked. Ricky looked at Merle sitting in his dirty, baggy overalls, his face dirty and stark under the harsh lights. "I was just thinking how you'd look shaved wearing a white shirt and tie, getting your picture taken. I don't see it."

"Neither do I," Merle said. "Because when we make our picture I won't have any white shirts. Just a closet full of western sports shirts, with lots of stripes and pearl buttons. I mean to look dressed up!"

Ricky leaned on the broom, still dreaming of the future, and the picture for the paper. "That will be a day," he sighed. "That will be THE day," Merle

said, really believing it. "Connor-Madison ... that name was made for a custom car."

Ricky twined one leg around the broom. "You're sure I don't need college?"

"I told you, didn't I?" "You'd tell me to go if you thought I needed it, wouldn't you?"

"Sure I would. You don't think I want a dumb partner, do you?" "Connor-Madison Motors," Ricky said. "I like the way that sounds. You know, I've been thinking of a sports-car design we might try on my coupe. Suppose we do a real radical. Take her right down to the frame and build something that's got the look of life about it. There has to be sweeping feeling. Something racy, and classy, and ... alert ... Like a good horse with his head up, sniffing the wind, and ready to run."

Merle Connor yawned.

To Be Continued

## One Illinois Mine Death During May

Accidents in Illinois coal mines caused one death and 68 injuries during May, H. B. Schull, director of the state Department of Mines and Minerals, said today.

The fatality was caused by a fall of face coal in a Williamson county mine.

With coal production totaling 2,774,389 tons for the month, production per fatality was 2,774,389 tons, while tons produced per non-fatal accident was 40,800.

Mine fatalities for the first five months of 1954 total 13. There were 483 non-fatal accidents in the same period.

When washing your toaster, never put it in water, because this will ruin its heating element. Just wipe it off with a damp cloth and dry carefully. Buy an inexpensive paint brush to keep all bread crumbs out.

To soften and remove baking stains in the oven, leave a shallow dish of ammonia in the closed oven overnight. By morning, the stains will be softened and very easy to remove.

## WANTED

**YOUNG MARRIED MAN** to represent the Singer Sewing Machine Co. in and around Harrisburg. Starting salary approximately \$275 monthly. Car furnished. Vacation, insurance benefit plan. Excellent opportunity for the right man. Apply to H. W. Woolard at Singer Sewing Center, between 5 and 8 p. m. Tuesday, Wednesday, or Thursday.
